

A square frame with a dark background contains a word search grid. The grid consists of six rows and six columns of letters. The letters are arranged as follows:

P	G	E	S	C	O
F	G	E	S	C	C
F	G	E	S	L	E
F	G	E	I	L	E
F	V	C	L	V	E
E	V	O	L	V	E

The word 'EVOLVE' is highlighted in white in the bottom row.

**Just as energy adapts and
changes from one form
to another,**

**PGESCo has also evolved
and grown despite of all
the challenges.**

Because we embrace

Change

and consistency at the same time.

Thus, evolution comes organically. Our first key to change is to understand what to keep hold of and then feel free to change everything else. A vital factor to PGESCo's growth is that we're consistent with our core values while we embrace change.

**To stay ahead in a
constantly evolving world,**
there are questions to be answered...

How do we stimulate
Growth?

By being constantly in motion. We are always looking for new prospects, fresh ideas and emerging talents.

The background of the entire slide is a close-up photograph of green palm fronds, showing the texture and veins of the leaves in various shades of green.

Flexibility

By recognizing our strengths and weaknesses, we devote our strengths to overcome our weaknesses.

Because we listen to the market, we can quickly adapt ourselves to market change. We have made change our mandate for a better future - a future in which we are committed to maintaining our market position and profitability while also accommodating emerging customer needs.

How did we overcome the

Challenges?

Maybe the smartest thing we do is work with
smart people.

People.

We mix diversity with top talent.

We believe in equal and fair employment practices that promote a nourishing work environment. Rewarding talent has proved time and again the greatest incentive to help promote and retain the best calibers in the industry. We instill growth values with integrity through everyday practices. An all-inclusive process that ensures we are always growing with business ethics at the forefront.

How do we build on our
Strengths?

By finding a door in every wall. Great challenges make us stronger and our rich experience helps us overcome any obstacles.

The background of the slide is a long-exposure photograph of a highway at sunset. The sky is filled with vibrant, streaked bands of orange, yellow, and red light, creating a sense of motion and energy. The highway below is blurred, showing the lanes and a concrete barrier on the right side. The overall composition is dynamic and modern.

Service

**Our Technology Platform
improving the overall experience.**

To ensure seamless digital exchange between functions in the organization, a SmartPlant Enterprise solution has been utilized by PGESCo as a platform to integrate all functions. Our tools will interface easily with contractors and suppliers' systems to allow fast and precise flow of engineering information. PGESCo's technology platform provides the tools and environment for meeting PGESCo's common goals to deliver quality projects and meet customer expectations.

A Business Model that Stands Out

Our successful company-wide business model is at the heart of our strategy. The model is based on an ethical process in which we continuously work to give the best results, value, and the products and services we offer. This allows us to drive sales, win new customers and allocate capital to further grow our business.

Engineering

We do it all and we are good at it.

PGESCo executes detailed engineering plans from licensing to vendor interfacing going through structural steel design, foundations, trenching, architectural to electrical engineering of raceway system, equipment management and automatic diagrams. Stress, layout, load analysis and design related to mechanical and electrical engineering is covered by our team of highly experienced engineers.

Procurement

We multi-package to cut your costs.

We issue your project documents through competitive tenders, setting all technical terms and commercial conditions to evaluate bids. Handling all purchase contracts through multi packages for both material and installation reduces your cost and ensures both local and international suppliers are utilized.

Construction Management

On time, every time.

We believe in safety first - then we race to the end. From site tests to contractor interface, our team is on schedule rising up to your highest expectations every step of the way.

Financing Agencies

SFD: Saudi Fund for Development

Magnitude

At PGESCo we're always one step ahead thanks to our aggressive strategy to constantly diversify not only our clients, but also our business lines both locally and abroad.

**PGESCO is a living,
fertile organization
packed with talent,
innovation and
dedication that
puts your company
where it belongs;
at the very top.**

**We're inviting you to
be part of this.**
